

Deep seismic profiles in Switzerland with seismic location points 1:125000

Authors of the enclosure: Urs Eichenberger, Armin Schemmery and François Mariller
Published by the Federal Office of Topography (Swiss Federal Office of Surveying, Confederation A. 0408)
Edited by the Swiss Geophysical Commission, Editor: E. CHALLERON

- Legend
- Seismic lines used for interpretation with seismic location information along the line
- Additional seismic lines with seismic location information
- Other used for interpretation
- Cross-section profile, not available for print

Map index of enclosure 02A

Scale 1:125000

Grid index of seismic lines

Table with columns for seismic line identifiers (A-K, 5-16) and corresponding profile numbers. The table is organized into a grid matching the map's coordinate system.
